

Web and social media video production

Project Title	Web and social media video production
Project Summary	Create short videos for web and social media outlets showcasing and promoting health and social services for Veterans. Create videos for VA Pittsburgh Human Library that profile Veterans and their experiences while serving and after service.
Country	United States

Project Description

Create short videos for web and social media outlets showcasing and promoting health and social services for Veterans.

Create videos for VA Pittsburgh Human Library that profile Veterans and their experiences while serving and after service.

The VA Human Library will

- Explore the diversity of perspectives among individuals working and receiving care within VA Pittsburgh Healthcare system (VAPHS)
- Challenge stigmas, stereotypes, and unconscious biases inherent in our healthcare system and in our society
- Reaffirm our shared mission, and enhance interprofessional collaboration amongst individuals working at VAPHS

Interviews

- Each interview will be semi-structured and guided by open-ended questions that will explore the individual's life story/identity and experience within VAPHS.
- Each interview will be recorded and edited down to 7-10 minutes. In the editing process, we will exclude the interviewer.

Required Skills or Interests

Skill(s)
